“ Pam,

I am so sorry to hear of Denny's passing. I am sorry that Jack and I could not participate in his memorial.

There are many things I admired about Denny. I'll share just a few. As part of the surveying team, he always stayed at the top of his profession with education and equipment. He also had a positive business attitude. He once told me not to turn down jobs that were a stretch technically. His attitude was it's an opportunity to learn and expand our abilities. He also had a funny sense of humor which I really enjoyed.

One of the things I really admired about Denny was his positive attitude towards the many problems which diabetes caused him. I never heard him complain about his lot in life.

I know he also loved you very much both from things he would share at work and how he would look at you even after so many years of marriage. Denny's memory will be with me a very long time. I hope past memories will sustain you in your grief.
