“ From the first time I met Maggie I knew she would be a dear friend. I will miss her as will so many.

“ I knew her as Margaret. I think when we first met, she worked in Physical Therapy at TCOH, and she later became one of the sweetest, kindest, gentlest, most caring nurses on the floor! She was soft spoken and often would treat me with a back rub in the middle of a busy day (she was careful not to get the skin too pink ). I've thought about Margaret many times since I left there in 1984. To the family: she was a great nurse, a great friend and a gem of a person. I'm praying her memory will be a constant source of comfort for you all.
