“ We are Dave & Margaret Fox. We just noticed in a back paper that she had passed away and were sorry to hear that. We took ceramic classes several years ago at the School Haus Square location. Her D-I-L Debbie attended there at times. My wife took more classes and over a longer time. I was involved for a period of time, making about 7 lamps for our nieces and nephews, my son, and my parents. Various figures to match their interests were used. Our son, Andrew, attended for a time, making several items we still have. She made things for her parents downstate as gifts during those years as well; they have passed on as well, but we have those items that they had received. We both enjoyed the time and conversations during those sessions. I had met Jack some of those times and enjoyed those brief visits also. She was a very friendly and interesting person to have known.

“ When I first met Grandma Enger, I immediately felt like a part of the family. No matter what, when you saw her she always had a hug and a kiss for you. She loved her kids, Grandkids and Great Grandkids so much, she was always bragging about one of them. Grandma, we love you and you will always be missed, but we are so happy

you are back with your loving husband in Heaven.

“ I just want to say what a blessing it was to have met Shirley many years ago! I enjoyed doing ceramics in her home and the laughter that we shared. She was such a loving person and always had a smile on her face. Now that she has earned her angel wings she will continue to watch over the family. God Bless you all, many prayers during this difficult time.
